This screenshot shows the "Downloads" section of the Cisco Webex interface. It includes a search bar, a "Buy Premium Plan" button, and a "Downloads" heading with a "Version information" link. The main content area is titled "Cisco Webex Meetings desktop app" and contains a detailed description: "The Webex Meetings desktop app allows you to start and join meetings quickly and easily. You can start and join meetings from desktop app or click a button to schedule a meeting from your calendar application. Starting with version 39.10, the Webex Meetings desktop app no longer includes integrations with Microsoft Outlook, Microsoft Office, IBM Lotus Notes, or other applications. When you install the latest version of the Webex Meetings desktop app, any previous versions of those integrations will be uninstalled.
